Hi Kody,

We are not sure why you felt the need to leave a bad review and a false description of events, and we take your accusations very seriously. We have talked with our team extensively and we have no record of you setting foot in our establishment and no one has experienced these events as you have described them. Also, the owner has been out of town at another property, so it's not possible for you to have spoken with them. If you have a legitimate complaint, please call us.
